NEW YORK CITY is to have a new skyscraper hotel to cost \$15,000,000. Based on either the heighth or the cost of the fodder factory, the rates are sure to be out of reach of the country Editor.

THE Louisville Times says that sulfur water has been struck near that city, at a depth of only 42 feet. I knew Louisville was a dangerous place, but would not have believed that Hell was only that far away.

In spite of the several thousand suits and indictments brought by Kentucky lawyers and Grand Juries, the Standard Oil Octopoda continues to peddle machinery grease at a lower price than you can buy it anywhere else.

Down in Newport a small boy found a railroad torpedo in front of a barber-shop. After he got tired carting it around in his pockets, he took a notion to find out what was inside of it. He hit it with a hammer; and now he is minus one eye. Straightway his father sued the L. and N. Railroad Company for \$15,000 damages; and Judge Berry is going to let him prove to the Jury, if he can, that the Railroad Company put it there. As it was found in front of a whiskers laundry, why not charge it up to the Honorable George Franklin Weaver, the strolling tonsorialist of Goebel fame?

In addition to a letter expressive of its appreciation of the aid and succor given to the injured and care bestowed upon the dead in the South Harrisburg wreck of May 11th by the people of Harrisburg, the Pennsylvania Railroad Company has donated \$10,000 to the Harrisburg Hospital. The donation was given to the Hospital without any restrictions as to its use, that being left entirely to its Board of Managers. Oh, these "soulless corporations!"

ACCORDING to a Washington story Justice HARLAN desires to resign from the Supreme Bench, accept the Republican nomination for Governor of Kentucky, and round out his career as Chief Executive of his native state. Quite a beautiful idea for the distinguished jurist. If he desires to round out his career as an officeholder in Kentucky, however, it will be necessary for him to run for Congress from the Eleventh District. That is the only poetical and political cinch in this state. - Cynthiana

Which has much of truth in it, and by reason thereof emphasizes all the more Democratic injustice in Kentucky. On every occasion, when political success demanded it, whether legal or illegal, the Democratic Legislature has gerrymandered the Congressional Districts in this state until they have practically corraled all the strong Republican counties into the Eleventhwithout the slightest regard to the Constitution, which provides as nearly equal population as possible in the formation of Districts.

Political Pickings

"TOO HONEST TO BE GOVERNOR."

Cincinnati Post.

Governor Douglas of Massachusetts has announced that he will not again run for office, and some of his superserviceable friends explain that he is "too honest to be Governor."

It may be that Douglas has been misrepresented. Honesty which will not fight for right of way is a poor imitation of the real thing. Nobody has yet said that Joe Folk was too honest to be Governor of Missouri. He

couldn't be. If Douglas has the high principles which are attributed to him he ought to want to keep right on being Governor until these principles triumph. Else a suspicion that the Bay State Executive is not suffering from too much honesty, but too little courage.

An Object Lesson to the South

FROM THE TRADESMAN, CHATTANOOGA, TENN.

every loyal American citizen, wherever he may reside: but more especially do we commend it, with the lessons logically deducible therefrom, to the press and people of the South:

"This New North seems to have no regard for the law, for good Government, for honest elections, for the rule of the people. Democracy has yielded to the boss. One hundred thousand illegal voters are admittedly registered by the Republican machine in Philadelphia. The mob is cock of the walk in Chicago. The thieves are lords of the ascendant in Pittsburgh. Every citizen in Rhode Island practically is for sale. New Jersey glories in her corporate rottenness. New York is the rendezvous for official blackmail and corporate plunder. And so it goes. The New North seems to be without morals, without virtues, without honesty and without any recognition whatever of the elemental principles of popular Government."

We assume the entire correctness of this picture and give it as our strongest conviction The annual encampment of the Kentucky that this deplorable state of affairs could exist in this country from only one cause, and that the lowering of our standard of citizenship through the indiscriminate admission of immi grants. Recent exposures of a secret agent of our Government, sent to Europe for the purpose of investigating the character of the immigrants coming to this country, a Mr. Braun, show that we are receiving with the knowledge and connivance of foreign Governments, their pauper and criminal classes.

This trusted agent of the Government makes

The following picture is from a recent edi- | make it a condition with some criminals that torial in The Memphis Commercial-Appeal, and they will be released if they will go to the while written from a different standpoint and United States. This agent also found an instifor a different purpose than the one to which tution near Budapest from which pauper children we will apply it, still it portrays conditions that are taken and placed in the hands of fictitious should receive the most earnest thought of parents to be brought to this country at so much a head.

A still further fraud exists in the issuance of counterfeit naturalization papers, so that thousands come into the cities of the North and at once enter under the control of political ward bosses, who vote them in "job lots" for a money price. Does anyone wonder that corruption runs riot in these cities?

These census figures give the total number of immigrants that have come into this country up to the 1st of January in round numbers to be 23,000,000, or one-half of the present population of the Northern, Eastern and Western states. In some of these the foreign born ex-

This has become so great a menace to the entire North, East and West that in consequence a cry has arisen from all portions of these sections that "the South is not getting her share of these valuable accessions to our American population," and some of our Southern the North friends have taken the bait, hook and all, and now the South is confronted with a menace from which they have hitherto been freed, and that through the agency of the much maligned Negro. Let us see how we have fared under this discriminating(?) policy that has given the North all these immigrants and which the presence of the Negro has kept out of the South.

Taking the census records for the twenty years ending with the last one, or from 1880 this as an official report to the President, and to 1900, the balance of the country increased he further says that it has been and is now the in agriculture 65%, while the South increased practice of some of these Governments to in the same period 72%. Manufactures in-

creased in the rest of the country outside the South during this period 242%, while the South increased 348%. The increase in value of manufactured products during this period for the balance of the Nation was 135%, and for the South it was 219%. By way of explanation of these startling figures the South has kept her population almost entirely intact, there being twice as many foreign born citizens in the state of Illinois as in the entire fourteen Southern states combined.

What a tribute is this to the native American blood that flows so fully in the veins of the people of the South! What incentive exists in these figures to keep the population of the South free from the taint that is inevitable from the reception of indiscriminate classes of foreigners? The people of the South have made the proudest record vouchsafed to any in the world since the close of the Civil War, and now as we stand on the threshold of greater things are we to have that proud record stained by admitting among us the "scum of Europe?"

This is the fate in store for us if our Southern ports are opened to the reception of immigrants, as many are proposing. The North, aided and abetted by the Commissioner of Immigration, ceeds the native born population by from 200 is very solicitous to have the South receive the vandal hordes coming to our shores, but we must not permit it; not only must our own loved land of the South be kept for our children as pure as we can have it, but a cry should be heard from all over the South that will stay this tide of immigration which is demoralizing

> Surely the United States will not be content to become a mere penal colony for Europe. It rests largely on the South to save not only her own section from this menace and damning blight, but that of the rest of the country as well. No higher duty rests today on our country than the protection of her population, and we shall never be silent until this is done.

The Winnifrede, J. B. Lewis and J. T. Hatfield from Kanawha with tows of coal have arrived in Cincinnati and all the boats will return with empties.

The Gleaner reached Louisville from Cairo a few days ago, having made the trip of 400 miles in sixty-two hours with nine coalboats and three barges in tow.

••• The machinery on the towboat Relief, which sank at Cincinnati last winter, has been removed and shipped to Pittsburgh, where it will be used for a new boat, which will be built by the Monongahela Consolidated Coal and Mining

A large coal hoist, the property of the Monongahela River Consolidated Coal and Coke Company, is moored at Allegheny in the Allegheny river. The craft is the first of its kind in this part of the country, and will be taken to New Orleans for the purpose of loading coal on the large ocean steamers. It has a capacity of 200 tons per hour. The shaft is 81 feet high and coal can be raised to the height of 80 feet. The hoist, if successful, will revolutionize the work of this nature, as it is possible for it to do the work quicker and abolish certain other disagreeable features now connected with the business.

Cuban Diarrhea. U. S. soldiers who served in Cuba during the

Spanish War know what this disease is, and that ordinary remedies have little more effect than so much water. Cuban diarrhœa is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon, as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston. Texas: "I hereby certify that Chamberlain's Colic. Cholera and Diarrhos Remedy cured my busband of a severe attack of Cuban diarrhoa, which he brought home from Cuba. We had several doctors, but they did him ne good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medi-FUNERAL DIRECTC AND EMBALMER oine." For sale by all Druggists.

TIME IS THE TEST.

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon find out when misrepresentations are made, and merit alone will stand the test

Maysville people appreciate merit, and many months ago local citizens publicly indorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? A cure that lasts is the kind that every sufferer from kidney ills is looking for. W. H. Paul, carpenter by trade, living at 333

East Third street, Maysville, Ky., says: "I value Doan's Kidney Pills as highly today as I did when I first used them in 1899. I got a box of them and used it for pain in my back and other evidences of a disordered condition of the kidneys which had given me much trouble for two years or more. This remedy acted promptly and I was soon cured. I did not notice any of the difficulties until some four years later or about a year ago. I again pro-cured Doan's Kidney Pills at J. Jas. Wood & Son's Drugstore and all symptoms of the trouble were quickly and thoroughly removed. Since then I have not noticed any signs of trouble of any kind arising from my back of kidneys. most cheerfully re-indorse Doan's Kidney Pills for they are certainly worthy of recommenda-
